

Pradyumn Bhushan

Mobile Application Developer | AOSP, Kotlin, Java, Flutter

[Email](#) / [GitHub](#) / [LinkedIn](#) / [Website](#)

PROFESSIONAL PROFILE

Mobile application developer with around **4 years of experience**, working primarily with **Kotlin, Java, and Flutter**. Built and maintained production Android applications using MVVM, Retrofit, Room, Firebase, and REST/SOAP APIs. Hands-on experience with AOSP-based custom ROM and kernel development for Xiaomi Snapdragon 660 devices, including device trees, kernel customization, and Android platform internals. Enjoys debugging complex issues, working close to the Android framework, and understanding how the operating system interacts with applications and hardware.

TECHNICAL SKILLS

Languages & mobile: Kotlin, Java, Dart, Flutter, Android SDK, Jetpack

Architecture & data: MVVM, Coroutines, Retrofit, RoomDB, REST/SOAP APIs

Cloud & integrations: Firebase, GCP, FCM, Crashlytics, Google Maps, Meta Ads, AdMob

Media & AI: Media3 (ExoPlayer), AI/LLMs, llama.cpp

Tooling & releases: Git, Linux, Shell, Docker, YAML, CI/CD, Play Store publishing, App Store publishing

Android platform: AOSP, custom ROMs, device trees, kernel customization

CAREER OVERVIEW

Mobile Application Developer

AppX (Creator Economy Tech Pvt. Ltd.)

Oct 2024 - Jan 2026

Android Application Developer

Sigma IT Softwares & Designers Pvt. Ltd.

Jul 2022 - Sep 2024

Android Application Developer

Techdock Pvt. Ltd.

Feb 2022 - Jul 2022

EDUCATION

MCA (Masters in Computer Application)

Shri Ramswaroop Memorial Group of Professional Colleges (SRMGPC)

2020 - 2022

B.VOC (Software Development & E-Governance)

National Post Graduate College (NPGC)

2017 - 2020

PROFESSIONAL EXPERIENCE

AppX (Creator Economy Tech Pvt. Ltd.)

Oct 2024 - Jan 2026

Mobile Application Developer

- Developed and maintained a large-scale Android platform powering multiple white-label educational applications using a scalable multi-flavor Gradle architecture.
- Architected reusable BuildConfig feature flags and Gradle product flavors, enabling rapid client-specific customization from a shared codebase.
- Designed and implemented an Instagram Reels-style short video module using Android Media3 (ExoPlayer), with HLS streaming, autoplay, intelligent preloading, thumbnail caching, and RecyclerView player reuse for smooth playback.
- Optimized networking with Retrofit/OkHttp caching, DNS-over-HTTPS resolution, connection pooling, API error handling, and offline-first strategies, improving application performance and reliability.
- Customized and deployed client applications by managing branding, application IDs, API endpoints, deep links, feature toggles, and release configurations.
- Integrated and maintained Firebase Crashlytics, Analytics, Cloud Messaging, and Realtime Database, plus the Meta/Facebook SDK, improving monitoring, analytics, and monetization.
- Developed and optimized high-traffic learning platform features: test series, solution pages, authentication, PDF viewer, bookmarks, notifications, and production bug fixes.
- Collaborated with backend engineers, QA, and product teams on production releases, performance improvements, client-specific enhancements, and critical hotfixes.

Sigma IT Softwares & Designers Pvt. Ltd.

Jul 2022 - Sep 2024

Android Application Developer

- Delivered Android applications end-to-end, from requirement analysis and feature implementation through testing, Google Play Store publishing, and post-release maintenance.
- Integrated secure payment gateways, Google Maps, Firebase Crashlytics, Analytics, FCM, and Realtime Database, push notifications, and background services across production applications.
- Built scalable Android applications using Kotlin, Java, MVVM, Retrofit, Android Jetpack, Coroutines, and REST APIs.
- Improved application stability by resolving production issues, optimizing API integrations, and enhancing application performance.
- Collaborated with cross-functional teams on new features, client customizations, and timely production releases.

Techdock Pvt. Ltd.

Feb 2022 - Jul 2022

Android Application Developer

- Developed Android applications using MVVM architecture with Kotlin and Java.
- Integrated Shopify GraphQL APIs for data-driven features and backend communication.
- Implemented Firebase Authentication and Realtime Database for secure user management and real-time synchronization.
- Contributed to UI implementation, API integration, bug fixing, and feature development in an Agile development environment.

PROJECT PORTFOLIO

Download counts are the figures stated in the source resume.

India's Got Latent

500K+ downloads

Official app of Samay Raina featuring exclusive comedy content, shows, and talent-driven entertainment.

[Google Play](#)

UPSTDC: Hotels, Tour Package Booking

50K+ downloads

Government-focused Android application for booking hotels.

[Google Play](#)

Jal Jeevan Mission: Grievance Redressal System

10K+ downloads

Government-focused Android application for complaint tracking and grievance management.

[Google Play](#)

Pocket LLM

App enabling fully on-device LLM chat using GGUF models and llama.cpp.

[GitHub](#)

Rojgar With Ankit (RWA)

10M+ downloads

Competitive exam preparation platform with extensive study content, weekly tests, and performance tracking for aspirants in SSC, police, banking, and other government exams.

[Google Play](#)

RBE Revolution By Education

500K+ downloads

Education app offering structured learning content for students.

[Google Play](#)

Kaxa: Learn Via Short Videos

1K+ downloads

Android app focused on short-form educational video content.

[Google Play](#)

Test Pass

1M+ downloads

Comprehensive exam preparation app offering category-wise practice tests for major competitive exams in India.

[Google Play](#)

Banking Mitra: Mobile Recharge, BBPS Bill Payment

10K+ downloads

Digital banking platform enabling retailers to offer Aadhaar ATM, bill payments, and essential financial services.

[Google Play](#)

AppX Admin

10K+ downloads

Companion admin application for managing student profiles, enrollments, attendance, and educational content across the AppX ecosystem.

[Google Play](#)

Chandan Logics

500K+ downloads

App designed in a structured manner to assist preparation for various examinations.

[Google Play](#)

Apni Padhai

500K+ downloads

Online platform for full preparation for competitive exams.

[Google Play](#)

Xiaomi-sdm660 Custom OS Development

10K+ downloads

Device tree maintainer with hands-on experience in AOSP-based custom OS and unified kernel development for the Xiaomi Snapdragon 660 chipset.
